

SILGARD®9 support system “Vaccine Q Diary”

About vaccination with SILGARD®9

SILGARD®9 is a new vaccine which was approved in July 2020. Registration of all persons who receive vaccination is requested by the Ministry of Health, Labour and Welfare for monitoring safety. Your cooperation is requested for registering and adding in the “Vaccine Q Diary”.

What are the features and functions of “Vaccine Q Diary”?

- A system for sharing vaccination information with the doctor.
- You can check the name of the doctor administering your vaccination and the medical institution where you will receive your vaccination.
- You can check your vaccination information.
- A notification of your vaccination schedule is sent to you when you add the scheduled date of the second vaccination onward.

Attention!

- “Vaccine Q Diary” is exclusively for use with SILGARD®9 vaccination. Do not use it for other purposes.
- Input pre-vaccination check items in “Vaccine Q Diary” on the day you receive SILGARD®9 vaccination.
- Consult your doctor in case of an emergency.

How to operate “Vaccine Q Diary”

Step 1

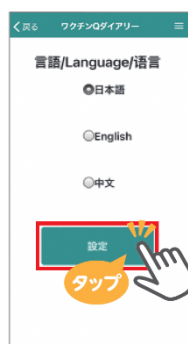

New registration

- ① Access “Vaccine Q Diary” via the two-dimensional code at the lower right.

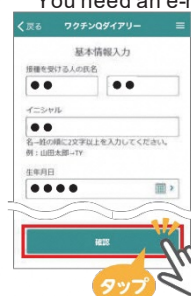

Smartphone or tablet

- ② Select the language and tap “Set”.
You can choose either Japanese, English, or Chinese.

- ③ Enter the items requested in the basic information input screen, tap “check”, and complete “registration” on the next screen.
* You need an e-mail address for registration.

▼ Registration information
Name (2-byte), initials, date of birth, phone number, postal code, address, e-mail address, password

- You will need to enter your e-mail address and password when you log-in the next time, so write them down in a safe place.

Receiving a registration completion e-mail

When new registration has been completed, a registration completion e-mail is sent to the registered e-mail address. Please keep the e-mail.

* The screen is under development and may partly differ from the actual screen.

Please turn over for more information.

Access “Vaccine Q Diary” from here.

“Vaccine Q Diary” becomes usable after registration of a new user and log-in.

Step 2

Input pre-vaccination check items

- 1 Tap "pre-vaccination check items" on the menu screen on the day of vaccination.

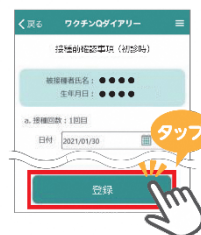

- 2 Enter the pre-vaccination check items. Tap "check" after you have completed entering all items.

Add some of the items you wrote on the examination form in the "Vaccine Q Diary".

- 3 After checking the entered items shown on the screen, tap "registration".

Step 3

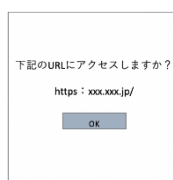

Linking with a vaccinating doctor

If you have a question, ask the staff of the medical institution.

Register a vaccinating doctor using one of the following methods.

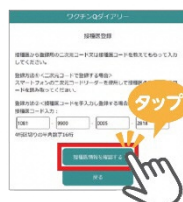

Linking with a vaccinating doctor using a two-dimensional code.

- 1 Open a QR code reader and read the two-dimensional code shown by the doctor. A QR code reader cannot be automatically started from "Vaccine Q Diary".
- 2 Access the vaccinating doctor registration screen via URL.
- 3 Check the displayed contents and tap "Consent to access by the vaccinating doctor".

Linking with a vaccinating doctor using the vaccination doctor code (16-digit number)

- 1 Log-in to "Vaccine Q Diary" and tap "vaccinating doctor registration (input vaccination doctor code)".
- 2 Enter the 16-digit vaccination doctor code shown by the doctor and tap "Check the information on vaccinating doctor".
- 3 Check the displayed contents and tap "Consent to access by the vaccinating doctor".

After having linked with the doctor

- Check the contents of entered pre-vaccination check items with the doctor at a doctor's office.
- Receive SILGARD®9 vaccination.

Add the scheduled date for the next vaccination

- Adding the scheduled date of your next vaccination is optional, but an alert can be issued when you add this information into the system.
- Add the scheduled date by tapping the notification for setting the date of the next vaccination, which is sent to a "list of notifications" after vaccination.
- Make a booking at the relevant medical institution because this system cannot be used for making an appointment.
- When you change the scheduled date of vaccination, make sure to inform the medical institution and change the booked date.
- When you change the scheduled date of vaccination, change the date in this system as well if you have added the scheduled date.

Contact information

Feel free to contact us if you have a question about registration, use, or service.
